SUMMARY

10+ years in service operations and data analytics. Today I lead the generative AI workstream for Quality at Rappi, where 100% of chats (450K per month) are evaluated with GenAI. I work with NPS, CSAT, AHT and SLA, root cause analysis, DAX, data modeling and relational databases, alongside operations and product stakeholders.

EXPERIENCE

CX Analyst · **Rappi Colombia** December 2025 – Present

- GenAI-based Quality evaluation: 100% of chats (450K per month) are evaluated, where human evaluators could only review a sample; equivalent to 37,500 hours of manual evaluation per month (5 minutes per chat).
- Quality analysts moved from auditing chats one by one to calibrating the model up to 90% accuracy, with the same criterion applied to every chat.
- GenAI model cost optimized: from 150 to 400 chats evaluated per dollar, which is 2.7 times the throughput and 62% less cost per chat.
- CSAT up from 30% to 50% in 3 months, with Voice of the Customer (VoC) in production, root cause analysis and work with operations and product stakeholders.
- Power BI dashboards (SQL on Snowflake, DAX, data modeling) used daily by the operations and Quality teams.

RX Analyst (Rappi Experience) · **BRM (third-party provider) · Dedicated to Rappi** February 2024 – December 2025

- Designed and maintained Power BI and Excel dashboards that operations used to track its indicators.
- Created and optimized SQL queries for recurring reporting and automated reports and tasks in Excel, Power BI and SQL.

Senior Business Analyst · **Accedo Colombia** April 2021 – February 2024

- Recovered over 10% of revenue lost to billing errors with a consolidated document of all invoices integrated into Power BI.
- Automated analysis and reporting processes with scripts: from 3-4 hours to 10-20 minutes (90-95% less time per process).
- Migrated the P&L to Power BI and built the first financial model for potential-client profitability.

Corporate Controller · **Accedo Colombia** December 2019 – April 2021

- Created a consolidated monthly revenue document across all business lines in five cities that reduced losses and increased profits by 10% to 15%.
- Moved the P&L to Power Pivot: from a one-year lag to monthly refresh.

WFM Lead · **Accedo Colombia** May 2019 – December 2019

- Led the Real-Time Analysts (RTAs) and was the point of contact with operations leadership.
- Presented department results in regular meetings and kept ongoing communication with clients WFM divisions.
- Started monthly recognition and feedback meetings to improve department processes.

Real-Time Analyst (RTA) · **Accedo Colombia** February 2016 – May 2019

- Automated manual copy/paste tasks with macros and VBA: from 30 minutes to under 1 minute and 99% fewer errors.
- Automated generation of 500 to 700 schedules from the client demand plan and legal and company constraints: review time went from 2 days to 3-4 hours.
- Redesigned the vacation and leave process: the approval rate went from 60% to 95%.
- Real-time schedule tracking documents refreshing every minute.

Customer Service Advisor · **Accedo Colombia** July 2015 – February 2016

- Handled customer requests for a major US telecommunications company.
- Organized and tracked customer inquiries and feedback to improve service processes.

SKILLS

Data and analytics: Power BI, DAX, data modeling, Microsoft Excel, SQL, relational databases, Snowflake, Python, VBA (Excel macros)
AI and development: Generative AI, prompt engineering, Claude Code, Codex, Git / GitHub, Jenkins
Metrics and CX: NPS, CSAT, AHT, SLA, Voice of the Customer (VoC), root cause analysis, stakeholders
Process: Process automation, internal tooling, process improvement and optimization, analytical reasoning

EDUCATION

Technical degree in Mechatronics · **Universidad Tecnológica de Pereira** January 2011 – December 2012
SAP Business One · **Heinsohn** July 2022 – September 2022
Self-directed learning: My learning has been applied in production. I was an early adopter of emerging tools (generative AI, coding assistants, Snowflake and automation) before formal certification paths existed, and took them into systems in use with measurable results. My Technical degree in Mechatronics remains my technical foundation. Study certificates available in the full resume, on request.

LANGUAGES

Spanish · native
English B2 (speaking and writing), working language since 2015
